

## **I am calling**

*(Melody: "Sailing")*

I am calling via landline to all the people of this Earth.  
I am calling to raise awareness of what can harm You - WiFi 5G.

They are frying, with radiation, bees & birds across the sky.  
I am flying, passing e-clouds, to be with You, to be free.

You will hear me clear & harmless via quantum internet.  
5G is dying. Safe G is flying, caring nature car(ry)ing You.  
Can You hear us? Will You join us? Keeping dark fright far away.  
We are rising! Utilising ... natures connection, surveillance free.

*(Guitar solo?)*

We are surfing, quick & safe now, home again on Scalar waves.  
We are sailing Safe G waters! I: We are with You. We are free. :I
